

KANOKPORN HUDSREE (LAY)

Address: 46/1247 Asoke-Din Daeng Road, Bang Kapi Subdistrict, Huai Khwang District, Bangkok 10310, Thailand

Phone: 096-8568296

Email: Laybabaka2@gmail.com

SUMMARY

As a First-Class Honors graduate in Computer and Robotics Engineering from Bangkok University, I am passionate about automation, AI-driven solutions, and digital transformation in industry. With hands-on experience in Robotic Process Automation (RPA), API integration, and AI-based systems, I aim to develop impactful, scalable, and intelligent automation solutions that solve real-world problems.

EDUCATION

Bangkok University — Computer and Robotics Engineering 2020 – 2024
GPA: 3.53 (First-Class Honors)

WORK EXPERIENCE

- Software Engineer | PTT Digital Solutions** Jan 2025 – Present
 - Developed AI-integrated automation for industrial traffic detection.
 - Built YOLOv5-based traffic light detection system with GPS coordination.
 - Led API integrations and data pipeline automation.
- RPA Developer | PTT Digital Solutions** Aug 2024 – Dec 2024
 - Developed automation workflows using Blue Prism.
 - Integrated TikTok Shop API using Python with secure signature generation.
 - Automated SAP data entry and stock monitoring via web scraping.
- R&D Engineer Intern | Ultimate Technology Co., Ltd** June 2023-Jul 2023
 - Worked on AI Project: Elephant Detection and Alert System with 5G Smart Pole.
 - Trained machine learning and deep learning models using YOLOv5s, SSD, and Faster R-CNN.
 - Utilized Roboflow for dataset management and model optimization.

PROJECTS

- Purchase Reader Bot using UiPath**
- Automated data extraction from purchase orders to reduce manual entry using UiPath and OCR.
- Integrated TikTok Shop API for Secure Stock Updates**
- Synchronized inventory data to TikTok Shop using Python and secure signature API authentication.
- AI Traffic Light Detection System**
- Developed an AI solution to detect traffic signals and extract GPS using YOLOv5
- Senior Project – Smart Pill Dispenser**
- Created an IoT-based medical dispenser with PostgreSQL, C#, LVGL GUI, and PlatformIO for remote scheduling.

Mini Projects:

- Logistics Management System – C Programming
- Bus Schedule System – MySQL
- Smart Farm Watering System – Arduino
- Microprocessor Controller – Assembly Language

Personal Skills

- Problem-solving skills
- Fast learning
- Self-motivated
- Team-oriented

SKILLS

- RPA Development: UiPath, Blue Prism
- Programming & Scripting: Python, C#, .NET, JavaScript, C/C++, Assembly
- Database & API Integration: PostgreSQL, MySQL, REST API
- OCR & Document Processing: UiPath OCR, Tesseract OCR
- AI & CV: YOLOv5, SSD, Roboflow, Deep Learning, Model Optimization
- Others: PlatformIO, Arduino, SolidWorks (Basic), ROS2 (Basic)

Languages

- Thai (Native)
- English
